What is Meet & Greet?

Meet & Greet Services are a simple and friendly way of helping you navigate through the airport with ease and comfort. With Meet & Greet Services, you will be able to clear the immigration process quickly and will also receive luggage assistance enabling you to travel hassle-free. A diligent representative will be assigned who will meet you at the aerobridge and help you in your process of exiting the airport. Porter services wherein a dedicated porter will not only help you carry your baggage but will also drop you off to your convenient mode of transport also form a part of Meet & Greet Services. Baggage Tracking Services will help you track your baggage between transit flights. Considering the fact that you are in a different country with a major language barrier, our representative will help you with understanding and navigating your way through the various airport procedures, ensuring your journey is made hassle-free.

At most airports, there are three types of Meet & Greet Services available- suiting your travel needs.

Arrival Meet & Greet

Whether you are travelling with friends or family or embarking on that long awaited solo trip, we are here to take care of you when you arrive at the airport. From helping you clear the immigration process in a jiffy to assisting you with your baggage, we have got your back and we will get you to the arrivals area as quickly as possible.

Departure Meet & Greet

While you depart, you need not worry about anything else. We take care of all of your requirements and the airport formalities. Besides, we are pleased to offer you a wide range of services such as porter assistance and buggy services.

Transit Meet & Greet

Transferring between terminals or within the same terminal can be a quite a task especially at large international airports. But with our Meet & Greet Services, it can seem like less of an ordeal. We make it simpler for you with our baggage retrieval, buggy and porter services. Besides, we will also help you with clearing the immigration process.
